Pre-program information for
Scout Leaders, book of
activities for Scouts, pencils,
scavenger hunt booklets, and
official Park & Zoo Honorary
Scout Badge.

Junior Girl Scout Animal Habitats Badge

Imagine meeting a Monkey or walking near a Wallaby. These animals live in the wild, so we don't get to spend too much time with them in their natural homes-their habitats. But that doesn't mean we can't find out more about where they live, how they play, and how we can help them, while we visit at the Cape May County Park & Zoo.

Steps to complete with this program:

1. Find out more about wild animals
2. Investigate an animal habitat
3. Create an animal house
4. Explore endangered habitats
5. Help protect animal habitats

This program includes up-close encounters with our education animals, classroom activities, activity booklet for their badge requirements, and a guided hike. This program will cover 4 of the 5 required steps for the Girl Scout Badge.

Boy Scout Mammal Study Merit Badge

Join us for a wild adventure while you work on your Mammal Study Merit Badge. This program covers #1, #2, #3C and #4C of your badge requirements. #5 is to be completed on the Scouts time and upon completion the Scout will be eligible for their Mammal Study Merit Badge. Blue cards cannot be signed the day of the program.

This program includes a Merit Badge Workbook, up-close encounters with our education animals, classroom activities, mammal observation time, and exploration of the Zoo. This program will cover 4 of the 5 required steps for the Boy Scouts Merit Badge.
